

ECOTANK tanks are the ideal solution for optimising water consumption in your laundry.

Perfect for businesses with limited space and smaller machines.

 **OUTSTANDING FEATURES**

80 and 150 litre tanks to save a large amount of water in small spaces.

In column: each washer or barrier can have 1, 2 or 3 tanks in column.

Resistant: Made of high density polyethylene and external reinforcement with skinplate panel structure, stainless steel aesthetics.

Interior with rounded corners design to prevent dirt accumulation and facilitate cleaning.

 **EFFICIENCY**

**We saves water:** thanks to the reuse of water at different stages of the washing and rinsing process.

**We saves energy:** by reducing the demand for conventional pumping and pressure systems, processes that require a considerable amount of energy.

**We saves chemicals:** by optimising the use of water in different phases of the wash, ECOTANKS reduce the need for chemicals to treat the water, taking advantage of its purity in each cycle.

 **EASY MAINTENANCE**

Plug and play: Easy to connect and install to washing machines with TOUCH II control.

2 water level sensors in each ECOTANK.

Self-cleaning tanks with pre-set programmes (with TOUCH II equipped washers).

Removable tanks for easy cleaning and maintenance.

 **OTHERS**

Grey skinplate panels.

High density polyethylene tanks.

2 water level sensors in each tank.
