TOUCH II

- **TOUCH II**: easy-to-use microprocessor, fully programmable with 7'' touchscreen.
- Multilingual interface.
- Unlimited programmes: in addition to presets, create as many as your business needs.
- USB port: configure, update, and analyse machines without an internet connection.

EFFICIENCY

- **EFFICIENT IRON**: automatically adjusts ironing speed based on residual moisture, saving energy.
- **OPTIMAL FEEDING**: automatic speed adjustment – slower for feeding, faster for higher output, up to 15 m/min (standard).
- Excellent heat transfer thanks to the roller's material and thickness.
- Auto stop at 80 ºC: extends lifespan of ironing belts.
- Gas circuit at the bottom, reducing energy consumption.
- Accurate temperature control via microprocessor: low energy use.
- Models with radiant gas burner: up to 25% more output – saving time and energy.

ROBUSTNESS

- Panels in skinplate and stainless steel.
- Ironing belts in Nomex: resistant to high temperatures.
- Nickel-plated cylinder – corrosion-resistant and longer lasting (optional).

ERGONOMICS

- Acoustic comfort: max 65 dB.
- Easy to clean, more hygienic.
- Optimal feeding height: 1,120 mm.

MAINTENANCE

- Easy access to all components on both sides of the machine.
- Compact design: fits in many spaces; the optional folder is also built into the unit.
- Single electrical and exhaust connection.

VERSATILITY

- Radiant gas model: flexibility for higher output and better adaptation to high-ceiling spaces.
- Key options:
  ◦ **SRE**: Standard rear outlet without folder (new).
  ◦ **LF**: Front outlet with integrated folder.
  ◦ **LFRE**: Front and rear outlet with integrated folder.
 ◦ **CPL-CROSS**: External transverse folder.
