Interior with rounded corners design to prevent dirt accumulation and facilitate cleaning.

ECOTANK tanks are the ideal solution for optimising water consumption in your laundry.

Perfect for businesses with limited space and smaller machines.

## EFFICIENCY

**We saves water**: thanks to the reuse of water at different stages of the washing and rinsing process.
**We saves energy**: by reducing the demand for conventional pumping and pressure systems, processes that require a considerable amount of energy.
**We saves chemicals**: by optimising the use of water in different phases of the wash, ECOTANKS reduce the need for chemicals to treat the water, taking advantage of its purity in each cycle.
